WASHINGTON STATE

JUSTICE DATA WAREHOUSE (JDW)

A CENTRALIZED SOURCE OF CRIMINAL JUSTICE DATA

The Justice Data Warehouse (JDW) integrates data from key justice system partners to provide a more comprehensive, longitudinal view of justice system involvement in Washington State.

DATA SOURCES

Washington Association of Sheriffs and Police Chiefs (WASPC) Jail Booking Reporting System (JBRS)
Booking and release records from city and county jails, demographics, charges, and booking information.

Washington State Department of Corrections (WA DOC)
Incarceration, community supervision, release dates, and movement history.

Washington State Administrative Office of the Courts (AOC)
Court case filings, case information, dispositions, and related court records.

Caseload Forecast Council (CFC) Judgment and Sentencing (J&S)
Adult convictions, offenses, sentencing information, and alternatives to incarceration.

Washington State Patrol (WSP) Computerized Criminal History (CCH)
Fingerprint-based criminal history and disposition information.

JUSTICE DATA WAREHOUSE (JDW)

LINKED
Records are linked across data sources using available unique identifiers.

LONGITUDINAL
Follows individuals' justice system involvement across key decision points over time.

SECURED & DE-IDENTIFIED
Access, use, security, and redisclosure are governed by agreements and review procedures.

SUPPORTING RESEARCH &DECISION-MAKING

Research
Supports applied and academic research examining justice system trends, patterns, and outcomes.

Policy and Program Evaluation
Provides data to support policy and program evaluation, assess programs, and inform legislative analysis.

Evidence Informed Decisions
Helps justice partners with integrated evidence to inform policy, planning, and system improvement.

Cross-System Collaboration
Equips justice system partners with integrated evidence to inform policy, planning, and system improvement.

ONE INTEGRATED SOURCE. MANY BENEFITS.

More Comprehensive View
Brings together data from key justice system partners for a fuller picture of justice involvement across Washington state.

Improved Data Quality & Consistency
Applies standardized processing and quality checks

Reduced Duplication
Streamlined data sharing saves time and resources for agencies.

Stronger Collaboration
Builds partnerships and supports coordinated, data-driven solutions.

Better-Informed Decision Making for Washington Communities
Provides data-driven evidence to support policy and system improvement.
